CULI

*(Funded by Thai Government Budget Bureau, Office of the Prime Minister, 1982)*

It is assumed that new courses must have some flaws and imperfection, and by means of evaluation only will we know these which will serve as basis for further improvement both in the teaching-learning process and in the materials. Pre-tests, Post-tests, questionnaires and comments from teachers and students alike are used in the process.

### A Construction of a Language Matrix and Standardized Tests for Testing Macro-language

Kantatip Singhaneti  
Phan Banpho  
CULI

*(Funded by Chulalongkorn University, 1982)*

This research is based on the assumption that communicative competence cannot be achieved through the system of teaching, learning and testing of discrete
